Notice of Allowance

This is the Notice of Allowance for application number 10/650,096 Pole connector Assembly and Method for Racks and Shelving, filed on 8/26/03. Claims are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1, line 9, after "second end" and before "to the second pole", [coupled] has been deleted and <u>insertable</u> has been added.

In claim 12, line 12, after "second end" and before "to the second pole", [coupled] has been deleted and <u>insertable</u> has been added.

In claim 24, line 3 after "an insert" and before "dimensioned", <u>having a deflectable</u> portion, the insert being has been added.

Authorization for this examiner's amendment was given in a telephone interview with Chris Austin on 2/3/06.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach an insert dimensioned to be received in a first pole section, having an aperture and a deflectable portion and a deformable fastener having a first end insertable into the aperture, the fastener having at least one surface positioned to contact or which is engageable with the aperture to limit deflection of the deflectable portion of the insert to less than that needed to permit removal of the insert from the first pole section, the fastener having a second end which is insertable into the second pole section. The prior art also does not teach the method of assembling a pole with the steps of inserting a first insert into an end of a first pole section, the first insert having at least one inwardly-deflectable projection, inserting a fastener having at least one deflectable projection into the aperture of the first insert, contacting a portion of the fastener with the at least one inwardly deflectable projection of the inert, limiting inward deflection of the inwardly-deflectable projection of the insert with the portion of the fastener and coupling the fastener to a second pole section wherein inserting the fastener includes deflecting the projection of the fastener.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
